

Can cut acrylic of up to

30mm  
thickness

in **one** step.

## Technical Specification

- ◆ **Transmission:**
  - THK Liner rail (Made in Japan) to guarantee more accurate operation.
  - Roller ball screw (Made in Germany).
- ◆ **Lens:**

High quality lens to ensure perfect cut (Made in USA).
- ◆ **Motion:**

Panasonic AC servo system to ensure faster cut, engrave and achieve much better process effect.
- ◆ **Chiller:**

Large power refrigerator.
- ◆ **Working Size:**

1300x2500mm
- ◆ **Power:**

130w
- ◆ **Resolution:**

<0.025mm
- ◆ **Setting Accuracy:**

0.1mm
- ◆ **Repetition Accuracy:**

<0.1mm
- ◆ **Max. Cutting Speed:**

15000mm/min
- ◆ **Max. Engraving Speed:**

6000mm/min
- ◆ **Min. Size of engraved letters:**

Letters Engraving 0.8mm cutting 2mm
- ◆ **Dictate Format:**

Transmitting files directly from CorelDraw AutoCAD etc.
